Experience

Communication Intern (Web Development and Project Coordination) Aug 2026 - Nov 2026
DigiPlus Interactive Corp. *Taguig City*

- Redesigned and revamped site pages to improve structure, responsiveness, and overall visual design.
- Formatted, structured, and published daily news and foundation updates using CMS.
- Served as Project Coordinator for the BingoPlus Apps Charity Page to track project tasks, timelines, and deliverables while coordinating with developers, designers, and CSR Branding and Communications teams.

Projects

DigiPlus Foundation - PH Impact Map | WordPress, PHP, HTML, CSS, JavaScript, Leaflet.js Website

- Built an interactive map using Leaflet.js and JavaScript to visualize 45+ community programs across the Philippines.
- Developed a custom WordPress shortcode (PHP) with a CSV-driven data pipeline for easy spreadsheet updates by non-technical staff.
- Implemented multi-category filtering, custom branded markers, auto-geocoding via Nominatim API, and mobile-responsive layouts.

FutureSmart Scholarship Form | WordPress, Oxygen Builder, Forminator, Easy Accordion Website

- Designed and built responsive front-end layouts for the scholarship landing page and application portal using Oxygen Builder.
- Integrated Forminator for multi-step application forms and customized Easy Accordion for clean FAQ and eligibility guidelines.
- Collaborated with the IT backend team and supervisor to connect front-end form interfaces with data workflows.

iRent (Academic Project) | HTML, CSS, JavaScript, & Bootstrap Website

- Developed a responsive, campus-exclusive peer-to-peer rental platform using HTML5, CSS3, Bootstrap 5, and JavaScript.
- Implemented dynamic UI features including a responsive slider system (SwiperJS) and custom dark/light theme switching.
- Optimized site navigation and built user-friendly interfaces for digital listings, FAQs, and interactive dropdowns.

Technical Skills

WordPress & CMS: Oxygen Builder, Forminator, Easy Accordion, Content Publishing & Management.
Web Development: HTML, CSS, Basic JavaScript, PHP, Leaflet.js, SwiperJS, Bootstrap.
